Summary Report on the Certificate Course on LV Switch Gear AY 2018-19

Title of Program	Certificate Course on LV Switch Gear
Objective of Program	<ul style="list-style-type: none">• Demonstrate the components of different voltage switchgear.• Be able to detect circuit breakers troubleshooting.• Be able to choose appropriate specifications of CB and switchgear.• Demonstrate the maintenance, testing procedures used for separate voltage switchgear.
Course Outcome	<ul style="list-style-type: none">• Students will Carry out risk assessments for the design, maintenance of high, medium and low voltage switchgear• Be updated with the latest trends and technologies used in the design, maintenance of high, medium and low voltage switchgear• Student will Perform the test activities and site procedures related to the design, maintenance of high, medium and low voltage switchgear
Content of the program	<ul style="list-style-type: none">• Basics of power distribution – fault level calculation, definitions & terms used in Industry. – 02 hrs• Power products Range overview with latest Indian & International Standards an overview. – 03 hrs• Low Voltage offerings in Power Distribution in Industry today– 02 hrs• Air Circuit Breakers. – 02 hrs• Moulded case circuit breakers– 02 hrs• Switch disconnect or fuse & Load break switches– 04 hrs• DIN Fuse – Importance of fuses– 02 hrs• Control products with latest Indian & International Standards an overview-02 hrs• Basic Control Products used in Industry today.– 02 hrs• Contactor- New technology, Compactness DOL, RDOL & S-D assembly – Hands on of Star-Delta assembly – 04 hrs• Overload Relay, Microprocessor Relay- Why new versions of relays? – 02 hr.• Motor protection circuit breaker- why MPCB needs to be used? 03 hrs• Soft starter- overview on use of soft starter. – 02 hr Total duration of the course – 32 hrs
Duration	09/02/2019 to 02/03/2019
Number of Participants	82

Summary Report on the Certificate Course on AC/DC Drives
AY 2018-19

Title of Program	Certificate Course on AC/DC Drives
Objective of Program	<ul style="list-style-type: none"> • Will have a basic or fundamental knowledge of various DC/AC Variable speed drives. • Will be able to perform drive start-up and parameterize drive for different configurations including use of programmable digital and analog inputs and outputs.
Course Outcome	<ul style="list-style-type: none"> • Students will Analyze the role and working of each component of AC/DC drives • Student will Commission and control the working of DC Drive with BOP.
Content of the program	<ul style="list-style-type: none"> • Introduction to Drive Technology (AC/DC) – 02 hrs • Basic Components of Drive. – 03 hrs • Introduction to operating panels ""(BOP, AOP, IOP) – 02 hrs • BOP Commissioning and Parameter Commissioning – 04 hrs • Commissioning with STARTER software – 04 hrs • STARTER User Interface – 01 hrs • Programming the digital inputs of AC Drives– 02 hrs • Programming the analog inputs of AC Drives – 04 hrs • Programming the Input Functions of AC Drives – 02 hr • Commissioning of DC Drive – 02 hr • Digital Inputs Configuration of DC Drive – 03 hrs • Digital Output Configuration of DC Drive-03 hrs. <p>Total duration of the course – 32 hrs</p>
Duration	09/02/2019 to 02/03/2019
Number of Participants	20

Academic Year 2018-19

Report on
Training/Workshop/Expert Session

Name of Program	Hands on Technical Training on STAAD Pro.
Title of Training Session	Technical Training on STAAD PRO
Objective of Program	1) To learn all the steps involved in structural analysis & designing of steel 2) This course will introduce one to STAAD Pro's state of the art user interface, prevailing analysis and design engines with a sophisticated finite element (FEM), visualization tools, and dynamic analysis capabilities..
Module of Training & Its Content	Training has covered following contents in it Model Generation: Generation of an interactive menu-driven model with concurrent 3D display 2D & 3D graphics generation using rectangular or polar coordinate systems Segments of repetitive geometry used to generate complex structural models.
Target Group	BE Civil
Number of Students	18
Attended Session Date &	06/08/2018 to 31/08/2018
Duration of Training	45 Hrs
Name of Expert	Mr. D. S. Desale
Details of Expert	Assistant Professor GCOERC
Brief about the Training/Workshop/Expert Session	STAAD.Pro is one of the popular software that is used for analysing & designing structures like – buildings, towers, bridges, industrial, transportation and utility structures. Designs may include any building structures like tunnels, culverts, bridges, piles, petrochemical plants; and building materials like timber, concrete, steel, cold-formed steel, and aluminium. STAAD or STAAD.Pro was developed by Research Engineers International at Yorba Linda, CA in 1997. STAAD.Pro provides flexible modelling environment, fluent data collaboration, and advanced features. It best structural analysis & design software that supports Indian as well as all international codes. So, to provide all the students industry oriental knowledge, it is very much necessary to learn tis software
