

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering and Research Centre, Nashik  
Blue Prism RPA Foundation Training Schedule**

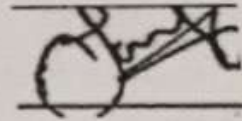

Name of Faculty : Mrs. Charushila D.Patil

Target Students: Second Year Computer  
Duration : 5 days , 8/09/2021 - 9/10/2021

Date	Day	Time	Topics to be covered
08/09/2021	Wednesday	2.30-4.30	Section-1: Introduction & Software Installation
15/09/2021	Wednesday	2.30-4.30	Process Studio Hands-On and Process Flow
22/09/2021	Wednesday	2.30-4.30	Business Object and Object Studio Hands-On
29/09/2021	Wednesday	2.30-4.30	Exception Management and Exception Handling Hands-On
06/10/2021	Wednesday	2.30-4.30	Additional Features Consolidated Exercise
09/10/2021	Wednesday	2.30-3.30	Test and feedback

Mrs. C.D.Patil  
Subject Expert

Mr. S.G.Shukla  
H.O.D.

**Guru Gobind Singh college of Engineering and Research Centre, Nashik**  
**Blue Prism Foundation Trainning**  
**Result of Ut-1 and UT-2**

Sr.No.	Roll No.	Name	Score In UT-1

# Course Outline

## AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

### Course version

This course outline applies to version 2.0 of *AWS Academy Cloud Foundations* in English. Details of changes from version 1.0 are available in the Instructor Guide.

### Description

*AWS Academy Cloud Foundations* is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support.

### Curriculum objectives

Upon completion of this course, students will be able to do the following:

- Define the AWS Cloud
- Explain the AWS pricing philosophy
- Identify the global infrastructure components of AWS
- Describe the security and compliance measures of the AWS Cloud, including AWS Identity and Access Management (IAM)
- Create a virtual private cloud (VPC) by using Amazon Virtual Private Cloud (Amazon VPC)
- Demonstrate when to use Amazon Elastic Compute Cloud (Amazon EC2), AWS Lambda, and AWS Elastic Beanstalk
- Differentiate between Amazon Simple Storage Service (Amazon S3), Amazon Elastic Block Store (Amazon EBS), Amazon Elastic File System (Amazon EFS), and Amazon Simple Storage Service Glacier (Amazon S3 Glacier)
- Demonstrate when to use AWS database services, including Amazon Relational Database Service (Amazon RDS), Amazon DynamoDB, Amazon Redshift, and Amazon Aurora
- Explain the architectural principles of the AWS Cloud
- Explore key concepts related to Elastic Load Balancing, Amazon CloudWatch, and Amazon EC2 Auto Scaling

### Duration

Approximately 20 hours, when delivered synchronously by an educator. Detailed timings are provided below. Actual delivery times will vary from class to class and depending on the delivery format. AWS Academy Cloud Foundations must be delivered over a period of at least two weeks.

### Intended audience

This introductory-level course is intended for students attending AWS Academy member institutions.

### Student prerequisites

To ensure success in this course, students should have the following:

# Course Outline

## AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

- General IT technical knowledge
- General IT business knowledge

### Delivery methods

This course can be delivered in person with synchronous lectures or with digital training models that students can complete independently.

### Educator prerequisites

This course does not have any prerequisites for educators. However, prior to facilitating this course, educators are recommended to complete this course, complete the AWS Academy Cloud Foundations course, and pass the AWS Certified Cloud Practitioner exam.

### Learning resources

- Lecture materials
- Online multiple-choice knowledge checks
- Lab exercises
- Digital training (optional)
- Video introductions
- Video demos
- Example solutions

### Course timing

This table provides the suggested durations for all course activities. Note that the total classroom time for all the modules in this course is 1,200 (20 hours). Items that are not applicable are marked NA.

Module Title	Lecture (Minutes)	Activity/Lab/Demo (Minutes)	Knowledge Check (Minutes)	Total Module (Minutes)
Course Introduction	35	NA	NA	35
Module 1: Cloud Concepts Overview	45	5	10	60
Module 2: Cloud Economics and Billing	45	45	10	100
Module 3: AWS Global Infrastructure Overview	25	35	10	70
Module 4: Cloud Security	45	60	10	115
Module 5: Networking and Content Delivery	60	60	10	130
Module 6: Compute	80	135	10	225

# Course Outline

## AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

Module Title	Lecture (Minutes)	Activity/Lab/Demo (Minutes)	Knowledge Check (Minutes)	Total Module (Minutes)
Module 7: Storage	45	75	10	130
Module 8: Databases	60	60	10	130
Module 9: Cloud Architecture	40	65	10	115
Module 10: Automatic Scaling and Monitoring	35	45	10	90
Total Course Time	515	585	100	1,200

### Module sections

This section lists the module sections in this course.

#### Course Introduction

- Course objectives and overview
- AWS Certification exam information
- AWS documentation

#### Module 1: Cloud Concepts Overview

- Introduction to cloud computing
- Advantages of the cloud
- Introduction to AWS
- Moving to the AWS Cloud
- Activity: Sample Exam Question
- Knowledge check

#### Module 2: Cloud Economics and Billing

- Fundamentals of pricing
- Total cost of ownership
- Activity: Simple Monthly Calculator
- Delaware North case study
- AWS Organizations
- AWS billing and cost management
- Billing dashboards
- Technical support models
- Activity: Support Plan Scavenger Hunt
- Activity: Sample Exam Question
- Knowledge check

#### Module 3: AWS Global Infrastructure Overview

- AWS global infrastructure
- Demo: AWS global infrastructure

# Course Outline

## AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

- AWS services and service categories
- Activity: AWS Management Console Clickthrough
- Activity: Sample Exam Question
- Knowledge check

### Module 4: Cloud Security

- AWS shared responsibility model
- Activity: AWS Shared Responsibility Model
- AWS IAM
- Demo: AWS IAM Console
- Securing a new AWS account
- Lab: Introduction to AWS IAM
- Securing accounts
- Securing data
- Working to ensure compliance
- Activity: Sample Exam Question
- Knowledge check

### Module 5: Networking and Content Delivery

- Networking basics
- Amazon VPC
- VPC networking
- Activity: Label This diagram
- Demo: Amazon VPC Console
- VPC security
- Activity: Design a VPC
- Lab: Build a VPC and Launch a Web Server
- Route 53
- CloudFront
- Activity: Sample Exam Question
- Knowledge check

### Module 6: Compute

- Compute services overview
- Amazon EC2 part 1
- Amazon EC2 part 2
- Amazon EC2 part 3
- Demo: Amazon EC2
- Lab: Introduction to Amazon EC2
- Activity: Amazon EC2 Versus Managed Services
- Demo: Amazon EC2 Part Console
- Amazon EC2 cost optimization
- Container services
- Introduction to AWS Lambda
- Activity: AWS Lambda

# Course Outline

## AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

- Introduction to AWS Elastic Beanstalk
- Activity: AWS Elastic Beanstalk
- Activity: Sample Exam Question
- Knowledge check

### Module 7: Storage

- AWS EBS
- Demo: Amazon Elastic Block Store Console
- Lab: Working with EBS
- AWS S3
- Demo: AWS S3 Console
- AWS EFS
- Demo: AWS EFS Console
- AWS S3 Glacier
- Demo: AWS S3 Glacier Console
- Activity: Storage Technology Selection
- Activity: Sample Exam Question
- Knowledge check

### Module 8: Databases

- Amazon RDS
- Demo: Amazon RDS Console
- Lab: Build a Database Server
- Amazon DynamoDB
- Demo: Amazon DynamoDB
- Amazon Redshift
- Amazon Aurora
- Activity: Database case study
- Activity: Sample Exam Question
- Knowledge check

### Module 9: Cloud Architecture

- AWS Well-Architected Framework design principles
- Activity: AWS Well-Architected Framework Design Principles
- Operational excellence
- Security
- Reliability
- Performance efficiency
- Cost optimization
- Reliability & high availability
- AWS Trusted Advisor
- Activity: Interpret AWS Trusted Advisor Recommendations
- Activity: Sample Exam Question
- Knowledge check

# Course Outline

## AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

### Module 10: Automatic Scaling and Monitoring

- Elastic Load Balancing
- Activity: Elastic Load Balancing
- Amazon CloudWatch
- Activity: Amazon CloudWatch
- Amazon EC2 auto scaling
- Lab: Scale & Load Balance your Architecture
- Activity: Sample Exam Question
- Knowledge check

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

### Course Version

This course outline applies to version 2.0 of *AWS Academy Cloud Architecting* in English.

### Description

*AWS Academy Cloud Architecting* covers the fundamentals of building IT infrastructure on AWS. The course teaches students how to optimize use of the AWS Cloud by understanding AWS services and how they fit into cloud-based solutions.

### Course Objectives

Upon completion of this course, students will be able to:

- Make architectural decisions based on AWS architectural principles and best practices
- Use AWS services to make infrastructure scalable, reliable, and highly available
- Use AWS managed services to enable greater flexibility and resiliency in an infrastructure
- Increase performance and reduce cost of a cloud infrastructure built on AWS
- Use the AWS Well-Architected Framework to improve architectures that use AWS solutions

### Duration

Approximately 40 hours when delivered synchronously by an educator. Actual delivery times will vary from class to class and depending on delivery format. This course must be delivered over a period of at least six weeks.

### Intended Audience

This intermediate-level course is intended for AWS Academy member institutions.

### Student Prerequisites

To ensure success in this course, students should have:

- Completed *AWS Academy Cloud Foundations (ACF)* or have equivalent experience
- A working knowledge of distributed systems

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

- Familiarity with general networking concepts
- A working knowledge of multi-tier architectures
- Familiarity with cloud computing concepts

### Delivery Methods

This course can be delivered in person with synchronous lectures or with digital training modules that students can complete independently, or a combination of ILT and digital (flipped classroom model).

### Educator prerequisites

This course does not have any prerequisites for educators. However, prior to facilitating this course, educators are recommended to complete this course, and pass the AWS Certified Solutions Architect - Associate exam.

### Learning Resources

- Lecture materials with activities and demonstrations
- Online multiple-choice knowledge checks
- Lab exercises
- Lab assessments
- Digital lesson content
- Video demos
- Optional Capstone project
- Example solutions

### Course Contents

		Lecture	Practical	Total
<b>Module 1 – Welcome to AWS Academy Cloud Architecting</b>		<b>30 min</b>		<b>30 min</b>
Lecture or Video	Course objectives and overview			
Lecture or Video	Café business case introduction			

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Lecture or Video	Roles in cloud computing			
<b>Module 2 – Introducing Cloud Architecting</b>		<b>55 min</b>	<b>10 min</b>	<b>65 min</b>
Lecture or Video	What is cloud architecting?			
Lecture or Video	The AWS Well-Architected Framework			
Lecture or Video	Best practices for building solutions on AWS			
Lecture or Video	AWS global infrastructure			
Discussion (Optional)	Course capstone project		5 min (optional)	
Knowledge Check	Cloud Architecting		10 min	
<b>Module 3 – Adding a Storage Layer</b>		<b>60 min</b>	<b>115 min</b>	<b>175 min</b>
Lecture or Video	The simplest architecture			
Lecture or Video	Using Amazon S3			
Demo	Demonstration: Amazon S3 Versioning		10 min	
Guided Lab	Guided Lab: Hosting a Static Website		20 min	
Lecture or Video	Storing data in Amazon S3			
Lecture or Video	Moving data to and from Amazon S3			
Demo	Demonstration: Amazon S3 Transfer Acceleration		10 min	
Lecture or Video	Choosing Regions for your architecture			
Challenge Lab	Challenge Lab: Creating a Static Website for the Café		60 min	

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Knowledge Check	Storage Layer		10 min	
Sample Question	Sample Exam Question		5 min	

Module 4 – Adding a Compute Layer		85 min	125 min	210 min
Lecture or Video	Architectural need			
Lecture or Video	Adding compute with Amazon EC2			
Lecture or Video	Choosing an Amazon Machine Image (AMI) to launch an Amazon EC2 instance			
Lecture or Video	Selecting an Amazon EC2 instance type			
Lecture or Video	Using user data to configure an EC2 instance			
Demo	Demonstration: Configuring an EC2 Instance with User Data		20 min	
Lecture or Video	Adding storage to an Amazon EC2 instance			
Guided Lab	Guided Lab: Introducing Amazon Elastic File System (Amazon EFS)		20 min	
Lecture or Video	Amazon EC2 pricing options			
Demo	Demonstration: Reviewing the Spot Instance History Page		10 min	
Lecture or Video	Amazon EC2 considerations			
Challenge Lab	Challenge Lab: Creating a Dynamic Website for the Café		60 min	
Knowledge Check	Compute Layer		10 min	

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Sample Question	Sample Exam Question		5 min	
<b>Module 5 – Adding a Database Layer</b>		<b>75 min</b>	<b>135 min</b>	<b>210 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Database layer considerations			
Lecture or Video	Amazon Relational Database Service (Amazon RDS)			
Guided Lab	Guided Lab: Creating an Amazon RDS database		20 min	
Demo	Demonstration: Amazon RDS Automated Backup and Read Replicas		15 min	
Lecture or Video	Amazon DynamoDB			
Discussion	Which database should the café use?		5 min	
Lecture or Video	Database security controls			
Lecture or Video	Migrating data into AWS databases			
Challenge Lab	Challenge Lab: Migrating a Database to Amazon RDS		80 min	
Knowledge Check	Database Layer		10 min	
Sample Question	Sample Exam Question		5 min

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Module 6 – Creating a Networking Environment		65 min	165 min	230 min
Lecture or Video	Architectural need			
Lecture or Video	Creating an AWS networking environment			
Lecture or Video	Connecting your AWS networking environment to the internet			
Demo	Demonstration: Creating a Virtual Private Cloud Using the AWS Console		30 min	
Demo (Optional)	Demonstration: Creating a Virtual Private Cloud Using the AWS CLI		30 min (optional)	
Lecture or Video	Securing your AWS networking environment			
Guided Lab	Guided Lab: Creating a Virtual Private Cloud		30 min	
Challenge Lab	Challenge Lab: Creating a VPC Networking Environment for the Café		90 min	
Knowledge Check	Networking Environment		10 min.	
Sample Question	Sample Exam Question		5 min	
Module 7 – Connecting Networks		75 min	50 min	125 min
Lecture or Video	Architectural need			
Lecture or Video	Connecting your remote network with AWS Site-to-Site VPN			
Lecture or Video	Connecting your remote network with AWS Direct Connect			
Lecture or Video	Connecting virtual private clouds (VPCs) in AWS with VPC peering			

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Guided Lab	Guided Lab: Creating a VPC Peering Connection		20 min	
Lecture or Video	Scaling your VPC network with AWS Transit Gateway			
Activity	AWS Transit Gateway		15 min	
Lecture or Video	Connecting your VPC to supported AWS services			
Knowledge Check	Connecting Networks		10 min	
Sample Question	Sample Exam Question		5 min	
<b>Module 8 – Securing User and Application Access</b>		<b>80 min</b>	<b>125 min</b>	<b>205 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Account users and AWS Identity and Access Management (IAM)			
Activity	Examining IAM policies		15 min	
Lecture or Video	Organizing users			
Lecture or Video	Federating users			
Demo	Demonstration: EC2 Instance Profile		15 min	
Lecture or Video	Multiple accounts			
Challenge Lab	Challenge Lab: Controlling Account Access by Using IAM		80 min	
Knowledge Check	User and Application Access		10 min	
Sample Question	Sample Exam Question		5 min	

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

<b>Module 9 - Implementing Elasticity, High Availability, and Monitoring</b>		<b>85 min</b>	<b>225 min</b>	<b>310 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Scaling your compute resources			
Demo	Demonstration: Creating Scaling Policies for Amazon EC2 Auto Scaling		30 min	
Lecture or Video	Scaling your databases			
Lecture or Video	Designing an environment that's highly available			
Demo	Demonstration: Creating a Highly Available Web Application		30 min	
Demo	Demonstration: Amazon Route 53		20 min	
Guided Lab	Guided Lab: Creating a Highly Available Environment		40 min	
Lecture or Video	Monitoring			
Challenge Lab	Challenge Lab: Creating a Scalable and Highly Available Environment for the Café		90 min	
Knowledge Check	Elasticity, High Availability and Monitoring		10 min	
Sample Question	Sample Exam Question		5 min	
<b>Module 10 – Automating Your Architecture</b>		<b>80 min</b>	<b>145 min</b>	<b>225 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Reasons to automate			
Lecture or Video	Automating your infrastructure			

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Demo	Demonstration: Analyzing AWS CloudFormation Template Structure and Creating a Stack		20 min	
Guided Lab	Guided Lab: Automating Infrastructure Deployment with AWS CloudFormation		20 min	
Lecture or Video	Automating deployments			
Lecture or Video	AWS Elastic Beanstalk			
Challenge Lab:	Challenge Lab: Automating Infrastructure Deployment		90 min	
Knowledge Check	Automation		10 min	
Sample Question	Sample Exam Question		5 min	
<b>Module 11 – Caching Content</b>		<b>65 min</b>	<b>45 min</b>	<b>110 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Overview of caching			
Lecture or Video	Edge caching			
Guided Lab	Guided Lab: Streaming Dynamic Content Using Amazon CloudFront		30 min	
Lecture or Video	Caching web sessions			
Lecture or Video	Caching databases			
Knowledge Check	Caching Content		10 min	
Sample Question	Sample Exam Question		5 min	

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

<b>Module 12 – Building Decoupled Architectures</b>		<b>60 min</b>	<b>15 min</b>	<b>75 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Decoupling your architecture			
Lecture or Video	Decoupling with Amazon Simple Queue Service (Amazon SQS)			
Lecture or Video	Decoupling with Amazon Simple Notification Service (Amazon SNS)			
Lecture or Video	Sending messages between cloud applications and on-premises with Amazon MQ			
Knowledge Check	Decoupled Architecture		10 min	
Sample Question	Sample Exam Question		5 min	
<b>Module 13 – Building Microservices and Serverless Architectures</b>		<b>90 min</b>	<b>190 min</b>	<b>280 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Introducing microservices			
Lecture or Video	Building microservice applications with AWS container services			
Guided Lab (Optional)	<i>Guided Lab: Breaking a Monolithic Node.js Application into Microservices</i>		180 min (optional)	
Lecture or Video	Introducing serverless architectures			
Lecture or Video	Building serverless architectures with AWS Lambda			
Demo	Demonstration: Creating an AWS Lambda Function		15 min	

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Demo	Demonstration: Using AWS Lambda with Amazon S3		30 min	
Guided Lab	Guided Lab: Implementing a Serverless Architecture on AWS		40 min	
Lecture or Video	Extending serverless architectures with Amazon API Gateway			
Lecture or Video	Orchestrating microservices with AWS Step Functions			
Challenge Lab	Challenge Lab: Implementing a Serverless Architecture for the Café		90 min	
Knowledge Check	Microservices and Serverless		10 min	
Sample Question	Sample Exam Question		5 min	
<b>Module 14 – Planning for Disaster</b>		<b>60 min</b>	<b>60 min</b>	<b>120 min</b>
Lecture or Video	Architectural need			
Lecture or Video	Disaster planning strategies			
Lecture or Video	Disaster recover patterns			
Guided Lab	Guided Lab: Hybrid Storage and Data Migration with AWS Storage Gateway File Gateway		45 min	
Knowledge Check	Disaster Planning		10 min	
Sample Question	Sample Exam Question		5 min	

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

Module 15 – Bridging to Certification		30 min		30 min
Lecture or Video	Certification exam resources			
Lecture or Video	Additional resources			
Discussion (Optional)	Course capstone project		5 min (optional)	
<i>Capstone Project (Optional)</i>	<i>Capstone Project</i>		300 min (optional)	

### Module Objectives

Module Title	Learning Objectives
<b>Module 1:</b> <b>Welcome to AWS Academy Cloud Architecting</b>	<ul style="list-style-type: none"><li>• Identify course prerequisites and objectives</li><li>• Recognize the café business case</li><li>• Indicate the role of cloud architects</li></ul>
<b>Module 2:</b> <b>Introducing Cloud Architecting</b>	<ul style="list-style-type: none"><li>• Define cloud architecture</li><li>• Define how to design and evaluate architectures using the AWS Well-Architected Framework</li><li>• Explain best practices for building solutions on AWS</li><li>• Describe how to make informed decisions on where to place AWS resources</li></ul>
<b>Module 3:</b> <b>Adding a Storage Layer</b>	<ul style="list-style-type: none"><li>• Recognize the problems that Amazon S3 can solve</li><li>• Describe how to store content efficiently using Amazon S3</li><li>• Recognize the various Amazon S3 storage classes and cost considerations</li><li>• Describe how to move data to and from Amazon S3</li><li>• Describe how to choose a Region</li></ul>

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

	<ul style="list-style-type: none"><li>• Create a static website</li></ul>
<b>Module 4:</b> <b>Adding a Compute Layer</b>	<ul style="list-style-type: none"><li>• Identify how Amazon EC2 can be used in an architecture</li><li>• Explain the value of using Amazon Machine Images (AMIs) to accelerate the creation and repeatability of infrastructure</li><li>• Differentiate between the EC2 instance types</li><li>• Recognize how to configure Amazon EC2 instances with user data</li><li>• Recognize storage solutions for Amazon EC2</li><li>• Describe EC2 pricing options</li><li>• Determine the placement group given an architectural consideration</li><li>• Launch an Amazon EC2 instance</li></ul>
<b>Module 5:</b> <b>Adding a Database Layer</b>	<ul style="list-style-type: none"><li>• Compare database types</li><li>• Differentiate between managed versus unmanaged services</li><li>• Explain when to use Amazon RDS</li><li>• Explain when to use Amazon DynamoDB</li><li>• Describe available security controls</li><li>• Describe how to migrate data into AWS databases</li><li>• Deploy a database server</li></ul>

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

<b>Module 6:</b> <b>Creating a Networking Environment</b>	<ul style="list-style-type: none"><li>• Explain the foundational role of a VPC in AWS Cloud networking</li><li>• Identify how to connect your AWS networking environment to the internet</li><li>• Describe how to isolate resources within your AWS networking environment</li><li>• Create a VPC with subnets, an internet gateway, route tables, and a security group</li></ul>
<b>Module 7:</b> <b>Connecting Networks</b>	<ul style="list-style-type: none"><li>• Describe how to connect an on-premises network to the AWS Cloud</li><li>• Describe how to connect VPCs in the AWS Cloud</li><li>• Connect VPCs in the AWS Cloud by using VPC peering</li><li>• Describe how to scale VPCs in the AWS Cloud</li><li>• Describe how to connect VPCs to supported AWS services</li></ul>
<b>Module 8:</b> <b>Securing User and Application Access</b>	<ul style="list-style-type: none"><li>• Explain the purpose of AWS IAM users, groups, and roles</li><li>• Describe how to allow user federation within an architecture to increase security</li><li>• Recognize how AWS Organizations service control policies (SCPs) increase security within an architecture</li><li>• Describe how to manage multiple AWS accounts</li><li>• Configure IAM users</li></ul>
<b>Module 9:</b> <b>Implementing Elasticity, High Availability, and Monitoring</b>	<ul style="list-style-type: none"><li>• Use Amazon EC2 Auto Scaling within an architecture to promote elasticity</li><li>• Explain how to scale your database resources</li><li>• Deploy an Application Load Balance to create a highly available environment</li><li>• Use Amazon Route 53 for Domain Name System (DNS) failover</li><li>• Create a highly available environment</li></ul>

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

	<ul style="list-style-type: none"><li>• Design architectures that use Amazon CloudWatch to monitor resources and react accordingly</li></ul>
<b>Module 10: Automating Your Architecture</b>	<ul style="list-style-type: none"><li>• Recognize when to automate and why</li><li>• Identify how to model, create, and manage a collection of AWS resources using AWS CloudFormation</li><li>• Use the Quick Start AWS CloudFormation templates to set up an architecture</li><li>• Indicate how to use AWS Systems Manager and AWS OpsWorks for infrastructure and deployment automation</li><li>• Indicate how to use AWS Elastic Beanstalk to deploy simple applications</li></ul>
<b>Module 11: Caching Content</b>	<ul style="list-style-type: none"><li>• Identify how caching content can improve application performance and reduce latency</li><li>• Identify how to design architectures using edge locations for distribution and distributed denial of service (DDoS) protection</li><li>• Create architectures that use Amazon CloudFront to cache content</li><li>• Recognize how session management relates to caching</li><li>• Describe how to design architectures that use Amazon ElastiCache</li></ul>
<b>Module 12: Building Decoupled Architectures</b>	<ul style="list-style-type: none"><li>• Differentiate between tightly and loosely coupled architectures</li><li>• Identify how Amazon SQS works and when to use it</li><li>• Identify how Amazon SNS works and when to use it</li><li>• Describe Amazon MQ</li></ul>

# Course Outline

## AWS Academy Cloud Architecting

CONFIDENTIAL – DO NOT DISTRIBUTE

<b>Module 13:</b> <b>Building Microservices and Serverless Architectures</b>	<ul style="list-style-type: none"><li>• Indicate the characteristics of microservices</li><li>• Refactor a monolithic application into microservices and use Amazon ECS to deploy the containerized microservices</li><li>• Explain serverless architecture</li><li>• Implement a serverless architecture with AWS Lambda</li><li>• Describe a common architecture for Amazon API Gateway</li><li>• Describe types of workflows that AWS Step Functions supports</li></ul>
<b>Module 14:</b> <b>Planning for a Disaster</b>	<ul style="list-style-type: none"><li>• Identify strategies for disaster planning</li><li>• Define recovery point objective (RPO) and recovery time objective (RTO)</li><li>• Describe four common patterns for backup and disaster recovery and how to implement them</li><li>• Use Amazon Storage Gateway for on-premises-to-cloud backup solutions</li></ul>
<b>Module 15:</b> <b>Bridging to Certification</b>	<ul style="list-style-type: none"><li>• Identify how to prepare for the AWS Certified Solutions Architect – Associate Certification</li><li>• Identify where to find resources</li></ul>

RollNo	Name of Student ( As per name list of Unipune)
1	AHER SRUSHTI DEVENDRA
2	AHIRE PRANAV KIRAN
3	ASTEKAR ATHARVA ANIL
4	AVHAD DHANSHRI SADASHIV
5	BEDARKAR KRUSHNAKANTH SADASHIV
6	BHARGAV POOJA DHARMENDRA
7	SHWETA BHARITKAE
8	BHOR VAISHNAVI NANDU
9	BIJWE ADITYA NARENDRA
10	CHANDRATRE SOHAM LAXMAN
11	CHAUDHARI BHAVIKA AJAY
12	CHINCHPURKAR VIJAY VISHNU
13	CHOUDHARY BALPREET KAUR BALVINDER SINGH
14	DAYMA AKASH SACHIN
15	GAHIR MANJEET KAUR MANDEEP SINGH
16	GANGAWANE CHINMAY SANJAY
17	GAWALI MANALI VILAS
18	GHAVATE MAITHILI ANIL
19	GUPTA PRIYANKA JAIKUMAR
20	HEDAOO VASIHNAVI SURESH
21	INAMDAR IQRAFATEMA RIZWAN
22	GUPTA ISHITA NITIN
23	JADHAV NEHA RAIMAL
24	JAIWAR RAJA LALLAN
25	PATIL JAYDEEP VIJAY

Department of Computer Engineering

**CCNAv7-1: Introduction to Network (SECO & TECO)**

**Schedule (12th Feb to 31st Mar 2022)**

Module	Date	Module/Particulars
1-3	14th Feb to 19th Feb 2022	Registration
		1. Networking Today
		2. Basic Switch and End Device Configuration
	3. Protocols and Models	
	20-Feb-22	Exam on Module 1-3
4-7	21st Feb to 26th Feb 2022	4. Physical Layer
		5. Number Systems
		6. Data Link Layer
	7. Ethernet Switching	
	27-Feb-22	Exam on Module 4-7
8-10	28th Feb to 5th Mar 2022	8. Network Layer
		9. Address Resolution
	10. Basic Router Configuration	
	06-Mar-22	Exam on Module 8-10
11-13	7th Mar to 12th Mar 2022	11. IPv4 Addressing
		12. IPv6 Addressing
	13. ICMP	
	13-Mar-22	Exam on Module 11-13
14-15	14th Mar to 19th Mar 2022	14. Transport Layer
		15. Application Layer
	20-Mar-22	Exam on Module 14-15
16-17	21th Mar to 26th Mar 2022	16. Network Security Fundamentals
		17. Build a Small Network
	27-Mar-22	Exam on Module 16-17
PR Exam	29-Mar-22	Practice PT Skills Assessment (PTSA)
Final Exam	31-Mar-22	Course Feedback & Final Exam

Mrs. P.K. Bachhav  
CISCO Training Instructor

Mr. S.G. Shukla  
H.O.D.

Dr. S.D. Kalpande  
Academic Dean & V. Principal

Dr. N.G. Nikam  
Principal

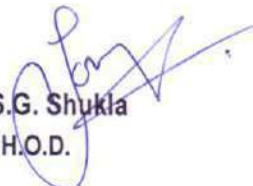

Department of Computer Engineering

**CCNAv7-2: Switching, Routing, and Wireless Essentials**

Exam Schedule (18th July to 23rd July 2022)

Module	Date of Exam	Name of Module
1-4	18.07.2022	Switching Concepts, VLANs, and InterVLAN Routing
5-6	18.07.2022	Redundant Networks
7-9	19.07.2022	Available and Reliable Networks
10-13	19.07.2022	L2 Security and WLANs
14-16	20.07.2022	Routing Concepts and Configuration
Practice Exams	20.07.2022	ITN Practice PT Skills Assessment (PTSA)
	20.07.2022	SRWE Practice PT Skills Assessment (PTSA) - Part 1
	21.07.2022	SRWE Practice PT Skills Assessment (PTSA) - Part 2
	21.07.2022	Practice Final Exam - SRWE
Final Skills Exams	22.07.2022	SRWE Final Skills Exam (Equipment)
	22.07.2022	SRWE Final Skills Exam (PTSA)
Course Feedback	23.07.2022	Course Feedback
Final Exam	23.07.2022	Final Exam

  
Mrs. P.K. Bachhav  
CISCO Training Instructor

  
Mr. S.G. Shukla  
H.O.D.

Cybersecurity

# Introduction to Cybersecurity

Discover the world of cybersecurity and its impact, as you uncover the most common threats, attacks and vulnerabilities.

By Cisco Networking Academy

## With Billions of Devices Now Online, New Threats Pop-up Every Second

Today's interconnected world makes everyone more susceptible to cyber-attacks. Whether you're attracted to the relatively new world of cybersecurity as a professional, or just interested in protecting yourself online and in social media, this introductory course is the answer. It explores cyber trends, threats—along with the broader topic of cybersecurity in a way that will matter to YOU. For instance, you'll learn how to protect your personal privacy online while gaining additional insight on the challenges companies, and governmental and educational institutions face today. No prerequisites required.

### You'll Learn These Core Skills:

- Learn what cybersecurity is and its potential impact to you.
- Understand the most common threats, attacks and vulnerabilities.
- Gain insights for how businesses protect their operations from attacks.
- Find the latest job trends and why cybersecurity continues to grow.

Programming

# PCAP: Programming Essentials in Python

Learn programming from scratch and master Python.

By Cisco Networking Academy in collaboration with OpenEDG Python Institute

## Learn Python, the versatile programming language

How great would it be to write your own computer program? Python is a multi-paradigm programming language used by startups and tech giants like Google, Facebook, Netflix, and more. With intuitive, readable syntax, Python is a great first programming language to learn.

Programming skills open you up to careers in almost any industry and are required if you want to continue to more advanced and higher paying software development and engineering roles.

Programming skills open you up to careers in almost any industry and are required if you want to continue to more advanced and higher paying software development and engineering roles.

This course is a great place to start learning Python – no prior programming knowledge required. Completing the course earns you a Statement of Achievement. It is split into two parts preparing you for two certifications:

- Part 1 (PE1: 35 hours) prepares you for [PCEP – Certified Entry-Level Python Programmer Certification](#).
- Part 2 (PE2: 40 hours) prepares you for [PCAP – Certified Associate in Python Programming Certification](#).

### You'll learn these core skills:

- Think algorithmically – how to analyze a problem and translate it for a computer to process.
- Design, develop, and improve multi-module computer programs.
- Analyze and model real-life problems in Object-Oriented Programming categories.
- Understand a programmer's work in the software development process.
- Learn how a program is executed in a computer environment.
- Gain skills to create and develop your own programming portfolio.

Program Report

## Computer Engineering Department

Title of Program	Online Workshop on "Robotics Process Automation on Blue prism"
Objective of Program	To train the students on software robotics automation Process
Name of Resource Person	Mrs. Charushila D. Patil
PO Achieved	PO9 : Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings .Level :3  PO11: Demonstrate knowledge and understanding of Engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary Environments. Level :3  PO12: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. Level :3
Resource Person Post and Organization	Ass. Professor , Computer , GCOERC ,Nashik
Date and Time of Program	8 Sept to 30 Nov 2021
Venue	Gcoerc, Nashik through online media platform
Organised By	Computer Engineering Dept.
Program In-Charge	Mrs. C.D.Patil
Target Student	Second Year Computer Engineering
No of Students Present	58
Program Approved by Principal/HOD	Yes
Supporting Staff Member	---
Photograph/Video Available	Yes
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	The Robotic Process Automation which is shortly known as (RPA) was invented by Blue Prism. Blue Prism software enables business operations to be agile and cost effective by automating, manual, rule-based, repetitive back-office processes and improving accuracy by developing a "Digital Workforce.". The Blue prism tool offers flow chart like designer with drag and drop feature to automate each step of the business processes.
Name and Sign of Program In charge	Mrs. C.D.Patil 
Signature of HOD	Mr. S.G.Shukla 
Signature of Vice Principal	Dr. S.D.Kalpande 
Signature of Principal	Dr. N.G.Nikam 
Remark if Any (for office use)	

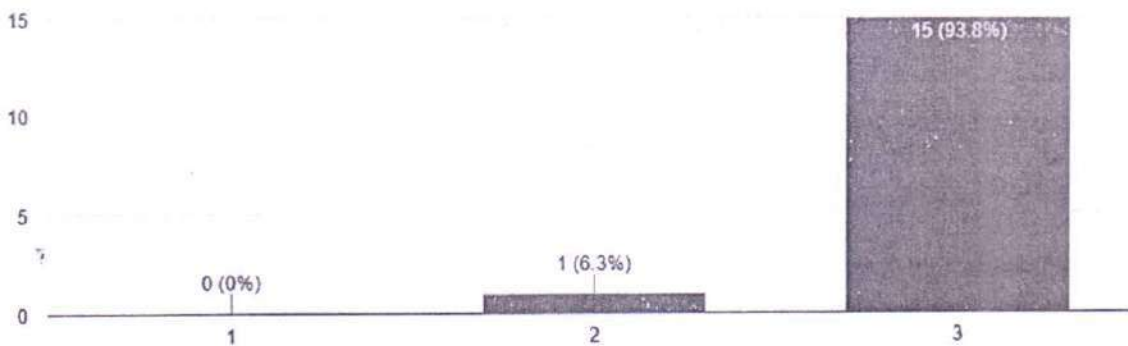

Program Report

- List of Enl:-
1. Photographs of the certificates.
  2. Attendance and Test Result of the students.
  3. Feedback of students

At what level Expert Lecture helps in developing software through modern Engineering Tools

16 responses

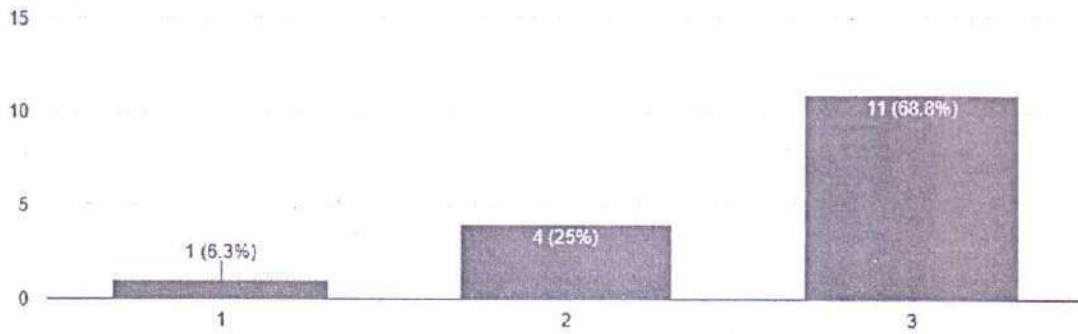

Program Report

At what level expert lecture help for functioning effectively on multidisciplinary teams?

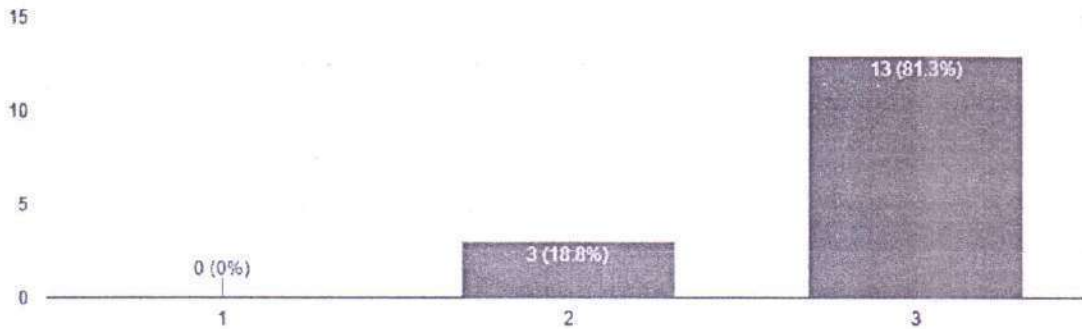

16 responses

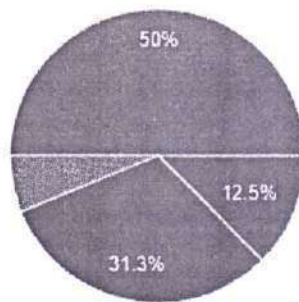

At what level expert lecture help for need of independent life-long learning

16 responses

If you want to use E-mail facility in your RPA Program ,which protocol will you use?

16 responses

- FTP
- SMTP
- TCP
- SMTP/POP3

Department of Computer Engineering

**CCNAv7-1: Introduction to Network (SECO & TECO)**

Schedule (12th Feb to 31st Mar 2022)

Module	Date	Module/Particulars
1-3	14th Feb to 19th Feb 2022	Registration
		1. Networking Today
		2. Basic Switch and End Device Configuration
	3. Protocols and Models	
	20-Feb-22	Exam on Module 1-3
4-7	21st Feb to 26th Feb 2022	4. Physical Layer
		5. Number Systems
		6. Data Link Layer
	7. Ethernet Switching	
	27-Feb-22	Exam on Module 4-7
8-10	28th Feb to 5th Mar 2022	8. Network Layer
		9. Address Resolution
	10. Basic Router Configuration	
	06-Mar-22	Exam on Module 8-10
11-13	7th Mar to 12th Mar 2022	11. IPv4 Addressing
		12. IPv6 Addressing
	13. ICMP	
	13-Mar-22	Exam on Module 11-13
14-15	14th Mar to 19th Mar 2022	14. Transport Layer
		15. Application Layer
	20-Mar-22	Exam on Module 14-15
16-17	21th Mar to 26th Mar 2022	16. Network Security Fundamentals
		17. Build a Small Network
	27-Mar-22	Exam on Module 16-17
PR Exam	29-Mar-22	Practice PT Skills Assessment (PTSA)
Final Exam	31-Mar-22	Course Feedback & Final Exam

Department of Computer Engineering

**CCNAv7-2: Switching, Routing, and Wireless Essentials**

Exam Schedule (18th July to 23rd July 2022)

Module	Date of Exam	Name of Module
1-4	18.07.2022	Switching Concepts, VLANs, and InterVLAN Routing
5-6	18.07.2022	Redundant Networks
7-9	19.07.2022	Available and Reliable Networks
10-13	19.07.2022	L2 Security and WLANs
14-16	20.07.2022	Routing Concepts and Configuration
Practice Exams	20.07.2022	ITN Practice PT Skills Assessment (PTSA)
	20.07.2022	SRWE Practice PT Skills Assessment (PTSA) - Part 1
	21.07.2022	SRWE Practice PT Skills Assessment (PTSA) - Part 2
	21.07.2022	Practice Final Exam - SRWE
Final Skills Exams	22.07.2022	SRWE Final Skills Exam (Equipment)
	22.07.2022	SRWE Final Skills Exam (PTSA)
Course Feedback	23.07.2022	Course Feedback
Final Exam	23.07.2022	Final Exam

  
Mrs. P.K. Bachhav  
CISCO Training Instructor

  
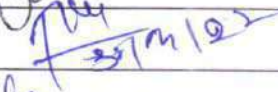

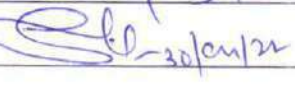

Mr. S.G. Shukla

Program Report

Computer Engineering Department

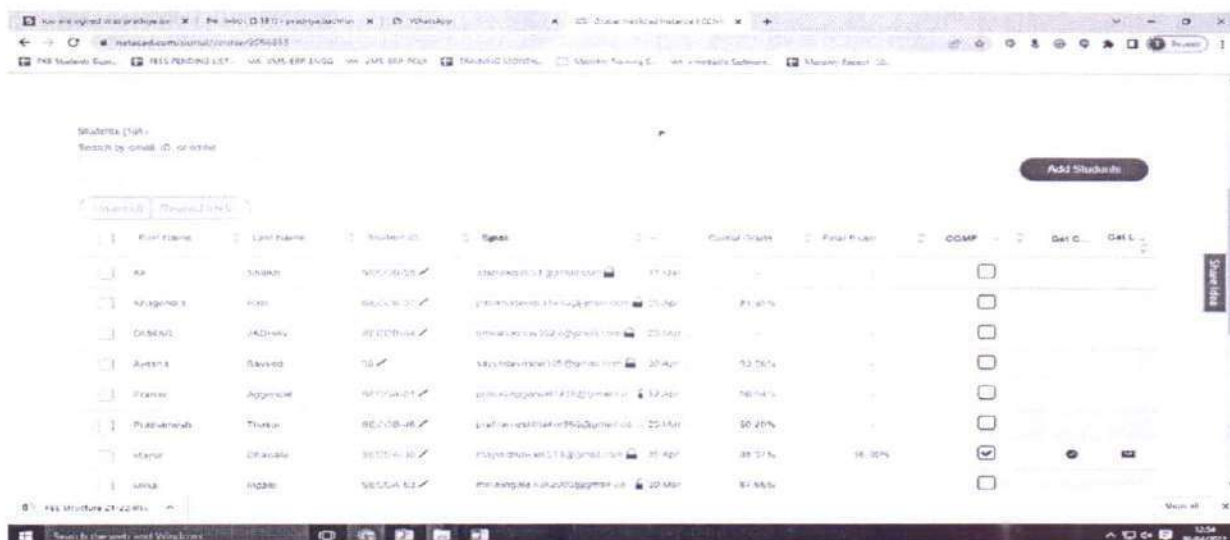

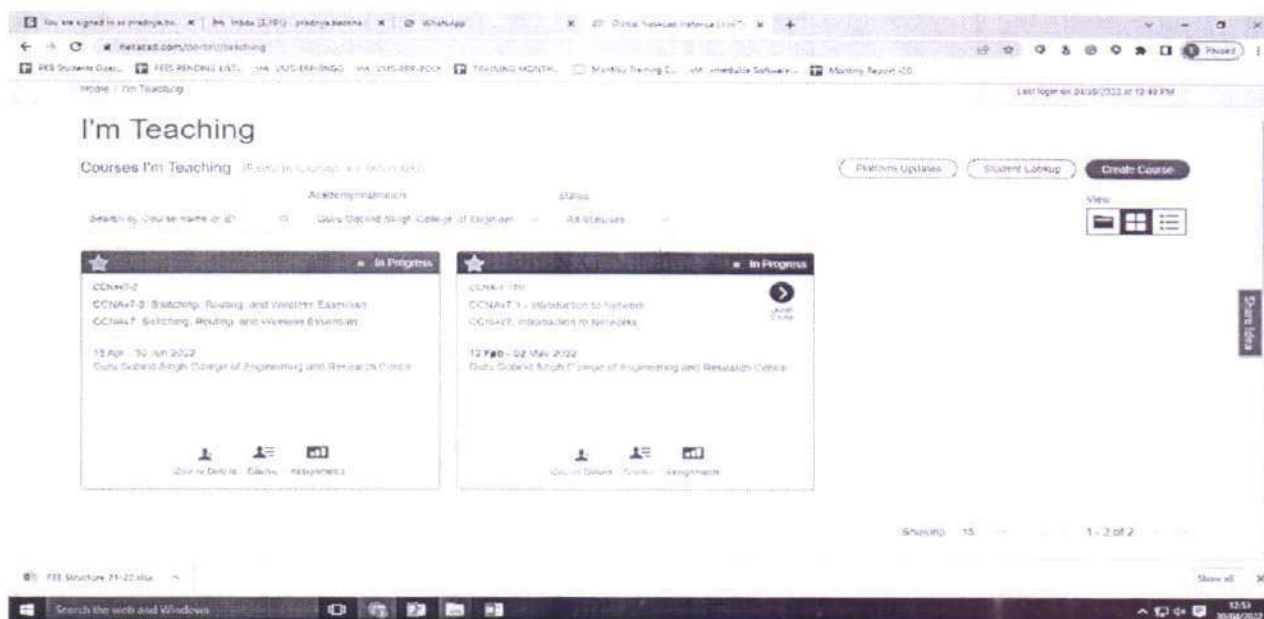

Title of Program	Training on "CCNA-1: Introduction to Networks"
Objective of Program	<ul style="list-style-type: none"> <li>• Build simple LANs, perform basic configurations for routers and switches, and implement IPv4 and IPv6 addressing schemes.</li> <li>• Configure routers, switches, and end devices to provide access to local and remote network resources and to enable end-to-end connectivity between remote devices.</li> <li>• Develop critical thinking and problem-solving skills using real equipment and Cisco Packet Tracer.</li> <li>• Configure and troubleshoot connectivity a small network using security best practices.</li> </ul>
PO Achieved:	PO1: Engineering Knowledge: <b>2.8</b> PO5: Modern Tool Usage: <b>2.7</b> PO12: Lifelong Learning: <b>2.8</b>
Name of Resource Person	Mrs. Pradnya K. Bachhav
Resource Person Post and Organization	Assistant Professor, GCOERC, Nashik
Date and Time of Program	From 12th Feb-25th April 2022
Venue	GCOERC, Nashik (Online)
Organised By	Computer Engineering Dept., GCOERC, Nashik
Program In-Charge	Mrs. Pradnya K. Bachhav
Target Student	SE & TE – Computer Engineering Students
No of Students /Parents Present	186
Program Approved by Principal/HOD	Yes
Supporting Staff Member	Ms. S.R. Gore
Photograph/Video Available	Yes
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	This course begins preparing for a networking career with this introduction to how networks operate. This first course in the 3-course CCNA series introduces architectures, models, protocols, and networking elements – functions needed to support the operations and priorities of Fortune 500 companies to small innovative retailers. Developing a working knowledge of IP addressing schemes, foundational network security, you'll be able to perform basic configurations for routers and switches.

## Program Report Computer Engineering Department

Title of Program	Training on "Introduction to Cyber Security"
Objective of Program	To provide following knowledge: Module 1 – The Need for Cybersecurity Module 2 – Attacks, Concepts and Techniques Module 3 – Protecting Your Data and Privacy Module 4 – Protecting the Organization Module 5 – Will Your Future Be in Cybersecurity?
Name of Resource Person	Mrs. P.K. Bachhav
PO Achieved	PO1- 3 PO3- 3 PO5- 3 P12- 3
Resource Person Post and Organization	Asst. Professor, GCOERC, Nashik (Cisco Training Instructor)
Date and Time of Program	From 1 <sup>st</sup> September to 25 <sup>th</sup> December 2021
Venue	Online – Google Meet, Cisco Netacad LMS
Organised By	Department of Computer Engineering under EduSkills Foundation
Program In-Charge	Mrs. P.K. Bachhav
Target Student	Third Year Computer Engineering
No of Students Present	44
Program Approved by Principal/HOD	Principal & HOD
Supporting Staff Member	-
Photograph/Video Available	Screenshots Available
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	Today's interconnected world makes everyone more susceptible to cyber-attacks. Whether you're attracted to the relatively new world of cybersecurity as a professional, or just interested in protecting yourself online and in social media, this introductory course was the answer for it. It explored cyber trends, threats—along with the broader topic of cybersecurity in a way that will matter to everyone. For instance, students have learned how to protect their personal privacy online while gaining additional insight on the challenges companies, and governmental and educational institutions face today.
Name and Sign of Program In charge	Mrs. P.K. Bachhav

Cisco Networking Academy

Certificate of Course Completion

---

### Introduction to Cybersecurity

For completing the Cisco Networking Academy® Introduction to Cybersecurity course, and demonstrating the ability to explain the following:

- Global implications of cyber threats
- Cisco's approach to threat detection and defense
- Ways in which networks are vulnerable to attack
- Why cybersecurity is a growing profession
- Impact of cyber-attacks on industries
- Opportunities available for pursuing network security certifications

**Report on  
Training/Workshop/Expert Session**

<b>Name of Program</b>	Technical Training
<b>Title of Training/Workshop/Expert Session</b>	<b>Training on Python Programming</b>
<b>Objective of Program</b>	1) To learn features of object-oriented programming with Python. 2) To study string operations. 3) To acquaint with data types, input output statement, decision making, looping and functions in python 4) To acquaint with the use and benefits of file handling in python.
<b>Module of Training &amp; Its Content</b>	<b>Training has covered following contents in it</b> History & Introduction to Python, OOPs Concepts, Packages, Exception Handling, Files, String, Tuples, Dictionary.
<b>Target Group</b>	BE (Mechanical) , BE (Civil) & BE (Electrical)
<b>Number of Students Attended Session</b>	150
<b>Date &amp; Duration of Training</b>	18/07/2022 to 23/07/2022
<b>Name of Expert</b>	Mr. P. R. Kulkarni / Mrs. S. D. Pagar
<b>Details of Expert</b>	Assistant Professor GCOERC
<b>Brief about the Training/Workshop/Expert Session</b>	Python is a high-level, interpreted, general-purpose programming language. The main objective is to understand the basic concepts and techniques which form the object-oriented programming paradigm. This program focused on basic functions of string and files. The students enjoyed the practical session. After every session there was a test on each topic which helped the students in programming.
<b>Program Coordinator Name &amp; Sign</b>	Mr. V. K. Wani
<b>Head of Department Name &amp; Sign</b>	Mr. S. G. Shukla

3. Students Feedback

**\*NOTE: - The feedback should be submitted by the Trainer within 2 days of the training session.  
Program Outcomes (PO's attained): -**

Sr. No.	PO No.	PO attained	% attained
1	PO1	At what level training helps you to apply knowledge of mathematics, science, engineering fundamentals, problem solving skills, algorithmic analysis to solve complex engineering problems?	2.53
2	PO2	At what level training helps you to analyse the problem by finding its domain and applying domain specific skills?	2.45
4	PO5	At what level training helps you to adapt the usage of modern tools and recent software?	2.58
5	PO8	At what level training helps you able to understand and follow professional ethics?	2.53
6	P11	At what level training helps you to apply the knowledge of Computer Engineering for development of projects, and its finance and management?	2.43
7	PO12	At what level training helps you to keep in touch with current technologies and inculcate the practices of lifelong learning?	2.53
8	-	How would you rate the content delivered by the Trainer/ Expert?	4.38
9	-	Rate at what level your doubts are resolved or answered?	4.36
10	-	How would you rate the overall session?	4.58
11	-	Will you recommend this session to others?	yes

Remark by Institute Level Coordinator- Nice session organised

Remark by Training Head: - To evaluate the level of understanding by students, small projects of coding to be given. \*

Head of Department

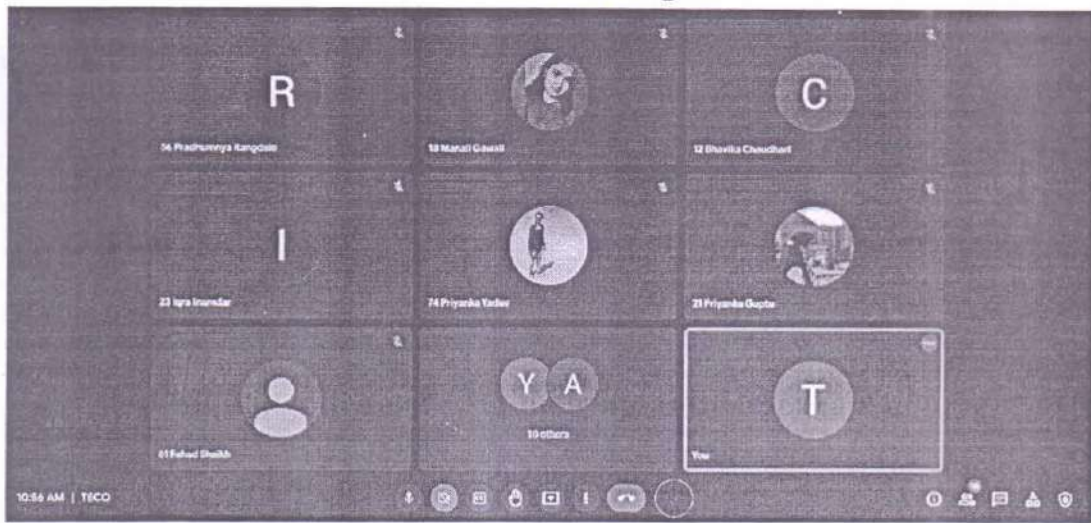

**Program Report**  
**Computer Engineering Department**

Title of Program	Training on "AWS Solution Architect-Associate"
Objective of Program	To provide following knowledge: Module 1 – Welcome to AWS Academy Cloud Architecting Module 2 – Designing Your Environment Module 3 – Designing for High Availability I Module 4 – Designing for High Availability II Module 5 – Automating Your Infrastructure Module 6 – Decoupling Your Infrastructure Module 7 – Designing Web-Scale Media Module 8 – Well Architected Framework Module 9 – Well-Architected Pillar 1: Operational Excellence Module 10 – Well-Architected Pillar 2: Security Module 11 – Well-Architected Pillar 3: Reliability Module 12 – Well-Architected Pillar 4: Performance Efficiency Module 13 – Well-Architected Pillar 5: Cost Optimization Module 14 – Troubleshooting Module 15 – Design Patterns and Sample Architectures
Name of Resource Person	Mr. Sandeep G. Shukla
PO Achieved	PO1- 3 PO3- 3 PO5- 3 P12- 3
Resource Person Post and Organization	Asst. Professor, GCOERC, Nashik (AWS Training Instructor)
Date and Time of Program	From 25 <sup>th</sup> November to 20 <sup>th</sup> December 2021
Venue	Online – Google Meet, AWS Academy LMS
Organised By	Department of Computer Engineering under EduSkills Foundation
Program In-Charge	Mr. Sandeep G. Shukla
Target Student	Third Year Computer Engineering
No of Students Present	68
Program Approved by Principal/HOD	Principal & HOD
Supporting Staff Member	-
Photograph/Video Available	Screenshots Available
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	This intermediate-level course covers the fundamentals of building IT infrastructure on AWS and helps students gain the skills they need to pursue the AWS Certified Solutions Architect – Associate certification. This course contains approximately 40 hours of content delivered through lectures, hands-on labs, and project work.
Name and Sign of Program In charge	Mr. Sandeep G. Shukla 
Signature of HOD	Mr. Sandeep G. Shukla 
Signature of Vice Principal	Dr. Shyamkumar D. Kalpande 
Signature of Principal	Dr. Neelkanth G. Nikam 
Remark if Any (for office use)

Program Report  
STUDENT FEEDBACK OF SESSION

AWS Solution Architect-Associate Training Feedback

Sr. No.	Feedback Questions	Average Rating out of 3
1	At what level AWS Training helps in applying the knowledge of mathematics, science, Engineering fundamentals, and an Engineering specialization to the solve the complex Engineering problems? [PO1]	2.80 / 3
2	At what level AWS Training helps in Design solutions for complex Engineering problems.[PO3]	2.75 / 3
3	At what level AWS Training helps in Create, select, and apply appropriate techniques, resources, and modern Engineering and IT tools including prediction and modelling to complex Engineering activities with an understanding of the limitations.[PO5]	2.78 / 3
4	At what level AWS Training helps for need of independent life-long learning [PO12]	2.72 / 3
5	Rate content delivered in AWS Training	4.48 / 5
6	At what level your doubts are resolved / answered by the expert?	4.50 / 5
7	How would you rate the overall AWS Training?	4.54 / 5

Program Report

Computer Engineering Department

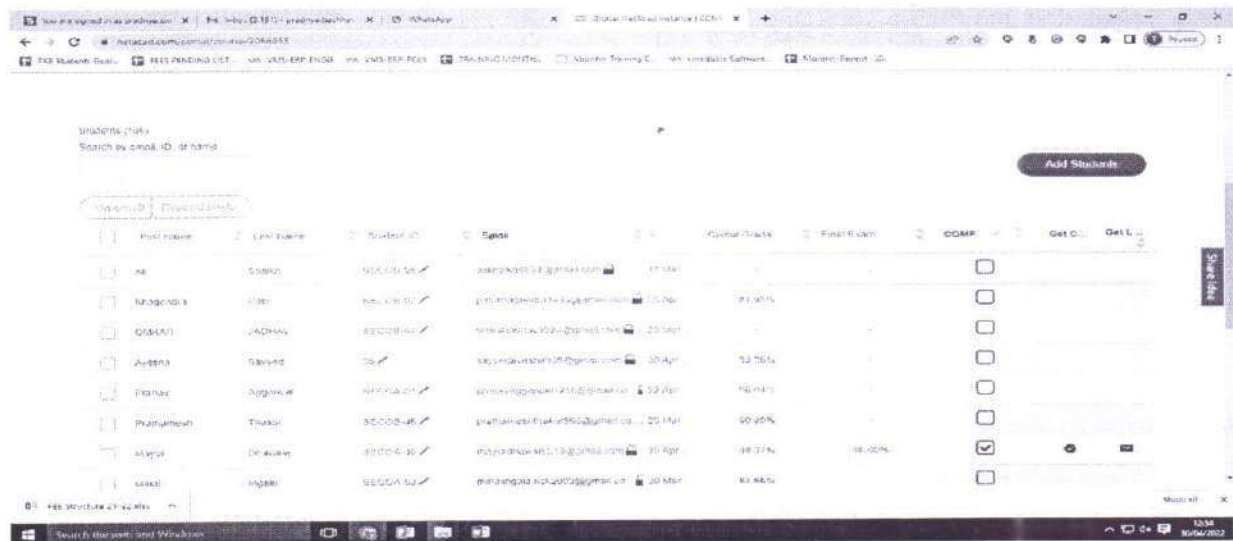

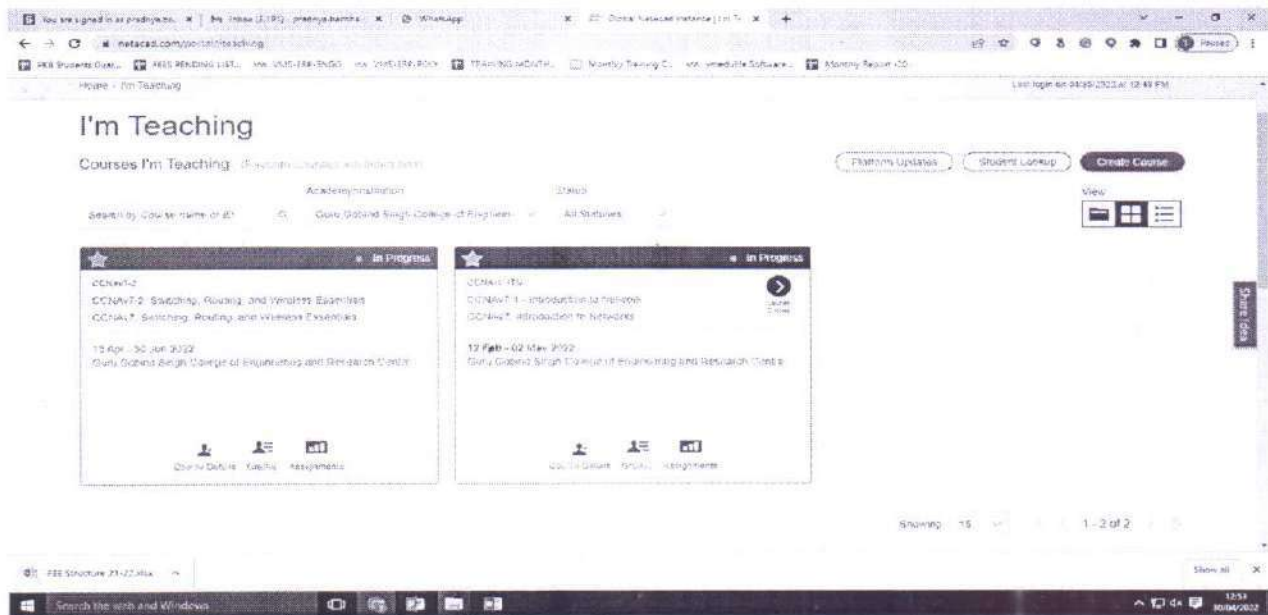

Title of Program	Training on “ <b>CCNA-1: Introduction to Networks</b> ”
Objective of Program	<ul style="list-style-type: none"> <li>• Build simple LANs, perform basic configurations for routers and switches, and implement IPv4 and IPv6 addressing schemes.</li> <li>• Configure routers, switches, and end devices to provide access to local and remote network resources and to enable end-to-end connectivity between remote devices.</li> <li>• Develop critical thinking and problem-solving skills using real equipment and Cisco Packet Tracer.</li> <li>• Configure and troubleshoot connectivity a small network using security best practices.</li> </ul>
PO Achieved:	PO1: Engineering Knowledge: <b>2.8</b> PO5: Modern Tool Usage: <b>2.7</b> PO12: Lifelong Learning: <b>2.8</b>
Name of Resource Person	Mrs. Pradnya K. Bachhav
Resource Person Post and Organization	Assistant Professor, GCOERC, Nashik
Date and Time of Program	From 12th Feb-25th April 2022
Venue	GCOERC, Nashik (Online)
Organised By	Computer Engineering Dept., GCOERC, Nashik
Program In-Charge	Mrs. Pradnya K. Bachhav
Target Student	SE & TE – Computer Engineering Students
No of Students /Parents Present	186
Program Approved by Principal/HOD	Yes
Supporting Staff Member	Ms. S.R. Gore
Photograph/Video Available	Yes
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	This course begins preparing for a networking career with this introduction to how networks operate. This first course in the 3-course CCNA series introduces architectures, models, protocols, and networking elements – functions needed to support the operations and priorities of Fortune 500 companies to small innovative retailers. Developing a working knowledge of IP addressing schemes, foundational network security, you'll be able to perform basic configurations for routers and switches.

## Program Report

Program Report

Sr. No.	Feedback Questions	Average Rating out of 3
1	Apply knowledge of Mathematics, Science, and Engineering for solving interdisciplinary problems of various complexities. [PO1]	2.80
2	Ability to apply the modern engineering tools and techniques that are necessary for mechanical engineering practices. [PO5]	2.71
3	Appreciation of technological change and the need for independent life-long learning. [PO12]	2.82
4	Rate content delivered in Expert Lecture	2.55
5	At what level your doubts are resolved / answered by the expert?	2.71
6	How would you rate the overall Expert Session?	2.75
7	Would you like to have such session in future	3

## CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

## CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

## CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

## Program Report

### Computer Engineering Department

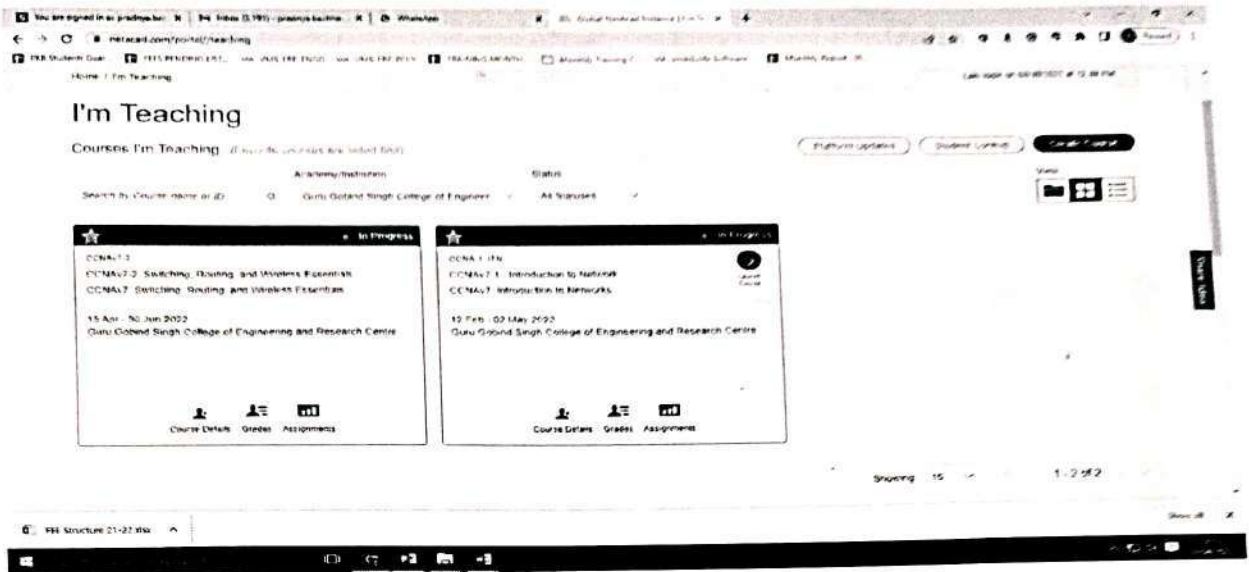

Title of Program	Training on "CCNA-2: Switching, Routing, and Wireless Essentials"
Objective of Program	<ul style="list-style-type: none"><li>• Configure VLANs and Inter-VLAN routing applying security best practices.</li><li>• Troubleshoot inter-VLAN routing on Layer 3 devices.</li><li>• Configure redundancy on a switched network using STP and EtherChannel.</li><li>• Troubleshoot EtherChannel on switched networks.</li><li>• Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.</li></ul>
PO Achieved:	PO1: Engineering Knowledge: <b>2.8</b> PO5: Modern Tool Usage: <b>2.9</b> PO12: Lifelong Learning: <b>2.9</b>
Name of Resource Person	Mrs. Pradnya K. Bachhav
Resource Person Post and Organization	Assistant Professor, GCOERC, Nashik
Date and Time of Program	From 15th April-6th Aug 2022
Venue	LCS Hall, GCOERC, Nashik
Organised By	Computer Engineering Dept., GCOERC, Nashik
Program In-Charge	Mrs. Pradnya K. Bachhav
Target Student	TE – Computer Engineering Students
No of Students Present	67
Program Approved by Principal/HOD	Yes
Supporting Staff Member	Ms. S.R. Gore
Photograph/Video Available	Yes
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	This course focuses on switching technologies and router operations that support small-to-medium business networks, including wireless local area networks (WLAN) and security concepts. In this second course in a 3-course CCNA students perform basic network configuration and troubleshooting, identify and mitigate LAN security threats, and configure and secure a basic WLAN. Recommended preparation: CCNA: Introduction to Networks or having equivalent knowledge.
Name and Sign of Program In charge	Mrs. Pradnya K. Bachhav 
Signature of HOD	Mr. S.G.Shukla 
Signature of Vice Principal	Dr. S.D .Kalpande 
Signature of Principal	Dr. N.G.Nikam  PRINCIPAL

## CCNAv7: Switching, Routing, and Wireless Essentials

The student has successfully achieved student level credential for completing CCNAv7: Switching, Routing, and Wireless Essentials course administered by the undersigned instructor. The student was able to proficiently:

- Configure VLANs and Inter-VLAN routing applying security best practices.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Troubleshoot EtherChannel on switched networks.
- Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.
- Configure dynamic address allocation in IPv6 networks.
- Configure WLANs using a WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.

## CCNAv7: Switching, Routing, and Wireless Essentials

The student has successfully achieved student level credential for completing CCNAv7: Switching, Routing, and Wireless Essentials course administered by the undersigned instructor. The student was able to proficiently:

- Configure VLANs and Inter-VLAN routing applying security best practices.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Troubleshoot EtherChannel on switched networks.
- Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.
- Configure dynamic address allocation in IPv6 networks.
- Configure WLANs using a WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.

**Program Report**  
**Computer Engineering Department**

Title of Program	Training on "Introduction to Cyber Security"
Objective of Program	To provide following knowledge: Module 1 – The Need for Cybersecurity Module 2 – Attacks, Concepts and Techniques Module 3 – Protecting Your Data and Privacy Module 4 – Protecting the Organization Module 5 – Will Your Future Be in Cybersecurity?
Name of Resource Person	Mrs. P.K. Bachhav
PO Achieved	PO1- 3 PO3- 3 PO5- 3 P12- 3
Resource Person Post and Organization	Asst. Professor, GCOERC, Nashik (Cisco Training Instructor)
Date and Time of Program	From 1 <sup>st</sup> September to 25 <sup>th</sup> December 2021
Venue	Online – Google Meet, Cisco Netacad LMS
Organised By	Department of Computer Engineering under EduSkills Foundation
Program In-Charge	Mrs. P.K. Bachhav
Target Student	Third Year Computer Engineering
No of Students Present	44
Program Approved by Principal/HOD	Principal & HOD
Supporting Staff Member	-
Photograph/Video Available	Screenshots Available
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	Today's interconnected world makes everyone more susceptible to cyber-attacks. Whether you're attracted to the relativity new world of cybersecurity as a professional, or just interested in protecting yourself online and in social media, this introductory course was the answer for it. It explored cyber trends, threats—along with the broader topic of cybersecurity in a way that will matter to everyone. For instance, students have learned how to protect thier personal privacy online while gaining additional insight on the challenges companies, and governmental and educational institutions face today.
Name and Sign of Program In charge	Mrs. P.K. Bachhav 
Signature of HOD	Mr. Sandeep G. Shukla 
Signature of Vice Principal	Dr. Shyamkumar D. Kalpande 
Signature of Principal	Dr. Neelkanth G. Nikam 
Remark if Any (for office use)	

- List of Enl:-

Program Report

STUDENT FEEDBACK OF SESSION

AWS Solution Architect-Associate Training Feedback

Sr. No.	Feedback Questions	Average Rating out of 3
1	At what level this Training helps in applying the knowledge of mathematics, science, Engineering fundamentals, and an Engineering specialization to the solve the complex Engineering problems? [PO1]	2.87 / 3
2	At what level this Training helps in Design solutions for complex Engineering problems.[PO3]	2.82 / 3
3	At what level this Training helps in Create, select, and apply appropriate techniques, resources, and modern Engineering and IT tools including prediction and modelling to complex Engineering activities with an understanding of the limitations.[PO5]	2.78 / 3
4	At what level this Training helps for need of independent life-long learning [PO12]	2.91 / 3
5	Rate content delivered in Training	4.45 / 5
6	At what level your doubts are resolved / answered by the expert?	4.56 / 5
7	How would you rate the overall Training?	4.85 / 5

## Introduction to Cybersecurity

For completing the Cisco Networking Academy® Introduction to Cybersecurity course, and demonstrating the ability to explain the following:

- Global implications of cyber threats
- Ways in which networks are vulnerable to attack
- Impact of cyber-attacks on industries
- Cisco's approach to threat detection and defense
- Why cybersecurity is a growing profession
- Opportunities available for pursuing network security certifications

## Introduction to Cybersecurity

For completing the Cisco Networking Academy® Introduction to Cybersecurity course, and demonstrating the ability to explain the following:

- Global implications of cyber threats
- Ways in which networks are vulnerable to attack
- Impact of cyber-attacks on industries
- Cisco's approach to threat detection and defense
- Why cybersecurity is a growing profession
- Opportunities available for pursuing network security certifications

**Program Report**

**Computer Engineering Department**

Title of Program	Training on “Python for All”
Objective of Program	To understand Python’s concepts
PO Achieved:	PO1: Engineering Knowledge: <b>2.8</b> PO5: Modern Tool Usage: <b>2.7</b> PO11: Project Management: <b>2.6</b> PO12: Lifelong Learning: <b>2.6</b>
Name of Resource Person	Mrs. S.D. Pagar & Mr. P.R. Kulkarni
Resource Person Post and Organization	Assistant Professor, GCOERC, Nashik
Date and Time of Program	From 17th July-31st July 2022
Venue	GCOERC, Nashik (Online)
Organised By	Computer Engineering Dept., GCOERC,Nashik
Program In-Charge	Mrs. Pradnya K. Bachhav
Target Student	BE- All branches
No of Students /Parents Present	84
Program Approved by Principal/HOD	Yes
Supporting Staff Member	Ms. S.R. Gore
Photograph/Video Available	Yes
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	This course was a great place to start learning Python – no prior programming knowledge required. Python is a multi-paradigm programming language used by startups and tech giants like Google, Facebook, Netflix, and more. With intuitive, readable syntax, Python is a great first programming language to learn. In this training students have learned all concepts of Python. .
Name and Sign of Program In charge	Mrs. Pradnya K. Bachhav
Signature of HOD	Mr. S.G.Shukla
Signature of Vice Principal	Dr. S.D .Kalpande
Signature of Principal	Dr. N.G.Nikam
Remark if Any (for office use)	

List of Enl:- 1. Screenshots & Number of Participants

## Program Report

### Screenshots

The screenshot shows a web browser window displaying a Netacad course page. The browser tabs include 'You are signed in as student', 'Guru Gobind Singh: Home', 'Admission', 'Reports - netacad@govind...', and 'Python for All | Networking Acc...'. The address bar shows 'netacad.com/portal/course/2265149'. The page content includes:

- Star icon and text: 'ARCHIVED Self-Enroll page public at: https://www.netacad.com/portal/web/self-enroll/course-1387386'
- Section number: '2'
- Course title: 'Python for All'
- Partner: 'PCAP - Programming Essentials in Python (English) - 2.10 - Self-Paced'
- Class ID: '1387386'
- Duration: '17 Jul - 31 Jul 2022, Guru Gobind Singh College of Engineering and Research Centre'
- Instructors: 'Pradnya Kalas Bachhav'
- Students: '(130) Search by email, ID, or name'
- Table with columns: First Name, Last Name, Student ID, Email, LAST L, Cumul Grade, Final Exam, COMPL, Get Certificate

First Name	Last Name	Student ID	Email	LAST L	Cumul Grade	Final Exam	COMPL	Get Certificate
Yash	Ganud		yashganud322@gmail...	3 Jul 2023	-	-	<input type="checkbox"/>	
Pratik	Rao		pratikrao11082002@...	2 Sep 2022	-	-	<input type="checkbox"/>	
Mayur	Bharat Patil		mayur15062001@gm...	20 May 2022	-	-	<input type="checkbox"/>	
Vishnavi	Warake		warakevishnavi29@...	Never	-	-	<input type="checkbox"/>	

The Windows taskbar at the bottom shows the search bar, task view, and system tray with a temperature of 26°C, light rain, and the date 13-08-2023.

Statement of Achievement

# PCAP: Programming Essentials in Python

---

The graduate of the *PCAP: Programming Essentials in Python* course, provided by **Cisco Networking Academy**<sup>®</sup> in collaboration with **OpenEDG Python Institute**:

- knows the universal concepts of computer programming, including variables, data structures, algorithms, control flow, functions, and exceptions;
- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.

Statement of Achievement

# PCAP: Programming Essentials in Python

---

The graduate of the *PCAP: Programming Essentials in Python* course, provided by **Cisco Networking Academy**<sup>®</sup> in collaboration with **OpenEDG Python Institute**:

- knows the universal concepts of computer programming, including variables, data structures, algorithms, control flow, functions, and exceptions;
- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.

The graduate of the *PCAP: Programming Essentials in Python* course, provided by **Cisco Networking Academy**<sup>®</sup> in collaboration with **OpenEDG Python Institute**:

- knows the universal concepts of computer programming, including variables, data structures, algorithms, control flow, functions, and exceptions;
- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.

- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.

Statement of Achievement

# PCAP: Programming Essentials in Python

---

The graduate of the *PCAP: Programming Essentials in Python* course, provided by **Cisco Networking Academy**<sup>®</sup> in collaboration with **OpenEDG Python Institute**:

- knows the universal concepts of computer programming, including variables, data structures, algorithms, control flow, functions, and exceptions;
- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.

**Summary Report on the Certificate Course on AC/DC Drives**  
**AY 2021-22**

<b>Title of Program</b>	Certificate Course on AC/DC Drives
<b>Objective of Program</b>	<ul style="list-style-type: none"> <li>• Will have a basic or fundamental knowledge of various DC/AC Variable speed drives.</li> <li>• Will be able to perform drive start-up and parameterize drive for different configurations including use of programmable digital and analog inputs and outputs.</li> </ul>
<b>Course Outcome</b>	<ul style="list-style-type: none"> <li>• Students will Analyze the role and working of each component of AC/DC drives</li> <li>• Student will Commission and control the working of DC Drive with BOP.</li> </ul>
<b>Content of the program</b>	<ul style="list-style-type: none"> <li>• Introduction to Drive Technology (AC/DC) – 02 hrs</li> <li>• Basic Components of Drive. – 03 hrs</li> <li>• Introduction to operating panels ""(BOP, AOP, IOP) – 02 hrs</li> <li>• BOP Commissioning and Parameter Commissioning – 04 hrs</li> <li>• Commissioning with STARTER software – 04 hrs</li> <li>• STARTER User Interface – 01 hrs</li> <li>• Programming the digital inputs of AC Drives– 02 hrs</li> <li>• Programming the analog inputs of AC Drives – 04 hrs</li> <li>• Programming the Input Functions of AC Drives – 02 hr</li> <li>• Commissioning of DC Drive – 02 hr</li> <li>• Digital Inputs Configuration of DC Drive – 03 hrs</li> <li>• Digital Output Configuration of DC Drive-03 hrs.</li> </ul> <p>Total duration of the course – 32 hrs</p>
<b>Duration</b>	12/03/2022 to 23/04/2022
<b>Number of Participants</b>	30

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
AHIRE GAGANVISHAL GAUTAM  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
AHIRE SAIPRASAD SUBHASH  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
BHALE SNEHAL PADMAKAR  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
BHOSALE KISHOR RAJABHAU  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
CHAKOR SUJATA SOMNATH  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
CHAUDHARI VISHAKHA VITTHAL  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
CHAUHAN VIPULKUMAR RAMESH  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
CHOPADE SAKSHI SANJAY  
has successfully completed the training course of module**

**AC/DC Drives**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

Trainer

Mr. B.G. Dabhadre  
SDC Coordinator

Mr. H.R. Chaugule  
HOD(Electrical)

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
SONAWANE BHUSHAN GANESH  
has successfully completed the training course of module**

**LV Switch Gear**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
AHIRE PRATIKSHA BAPU  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
DHORE SIDDHANT MAHESH  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
JADHAV TUSHAR TANAJI  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
KARANJKAR PRATHMESH VITTHAL  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
MAHAJAN GAURAV VILAS  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
PATIL MRUNAL MAHENDRA  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
PAUL YOGESHWARI SUDHIR  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
PEKHALE AJINKYA BALASAHEB  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
RAJOLE SAMRUDDHI SUDAM  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
RAUT DIPAK KAILAS  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
SHEWALE BHALCHANDRA AVINASH  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
SUJANWAR ADITYA SANJAY  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
KARAD PRATIK KANTIRAM  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
AGRAWAL SARVESH GANESHLAL  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
ASWALE ARJUN ANKUSH  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
BHOSALE DIPALI DHANANJAY  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
BHOYE SWATI LAXMAN  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
BIDWAI SHANTANU KAILAS  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
CHAUDHARI MANISHA POPAT  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
DONDE PRIYANKA RAMESH  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
DUSANE ANIKET RAVINDRA  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
DUSANE GAURI SANJAY  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
GANGURDE AMRUTA C  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
GIDDE SHRADDHA BAJIRAO  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
KOTHAWADE SANDESH DILIP  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
LAD VISHNU BALIRAM  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
MARU ADITYA KAILASH  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
PATIL PURUSHOTTAM MANILAL  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
SHEJOLE KARINA GANESH  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
SHETE YASH RAJU  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
SHIMPI AMIT GOVIND  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
THOKE KARTIKI RAVINDRA  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
TUPLONDHE SHRAWASTI SANDIP  
has successfully completed the training course of module  
PLC & Automation**

**During Academic Year 2021-22  
At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

**Principal  
GCOERC**

**Guru Gobind Singh Foundation's  
Guru Gobind Singh College of Engineering & Research Centre, Nashik**

## **CERTIFICATE OF TRAINING**

**This is to certify that,  
WARAKE VAISHNAVI VIJAY  
has successfully completed the training course of module**

**PLC & Automation**

**During Academic Year 2021-22**

**At Industry Institute Partnership Excellence Centre,  
Khalsa Educational Complex, Nashik-09**

**Vice Principal  
GCOERC**

## Department of Electrical Engineering

### Summary Report on the Certificate Course on LV Switch Gear AY 2021-22

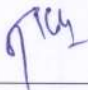

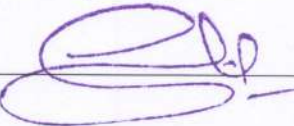

<b>Title of Program</b>	Certificate Course on LV Switch Gear
<b>Objective of Program</b>	<ul style="list-style-type: none"><li>• Demonstrate the components of different voltage switchgear.</li><li>• Be able to detect circuit breakers troubleshooting.</li><li>• Be able to choose appropriate specifications of CB and switchgear.</li><li>• Demonstrate the maintenance, testing procedures used for separate voltage switchgear.</li></ul>
<b>Course Outcome</b>	<ul style="list-style-type: none"><li>• Students will Carry out risk assessments for the design, maintenance of high, medium and low voltage switchgear</li><li>• Be updated with the latest trends and technologies used in the design, maintenance of high, medium and low voltage switchgear</li><li>• Student will Perform the test activities and site procedures related to the design, maintenance of high, medium and low voltage switchgear</li></ul>
<b>Content of the program</b>	<ul style="list-style-type: none"><li>• Basics of power distribution – fault level calculation, definitions &amp; terms used in Industry. – 02 hrs</li><li>• Power products Range overview with latest Indian &amp; International Standards an overview. – 03 hrs</li><li>• Low Voltage offerings in Power Distribution in Industry today– 02 hrs</li><li>• Air Circuit Breakers. – 02 hrs</li><li>• Moulded case circuit breakers– 02 hrs</li><li>• Switch disconnect or fuse &amp; Load break switches– 04 hrs</li><li>• DIN Fuse – Importance of fuses– 02 hrs</li><li>• Control products with latest Indian &amp; International Standards an overview-02 hrs</li><li>• Basic Control Products used in Industry today.– 02 hrs</li><li>• Contactor- New technology, Compactness DOL, RDOL &amp; S-D assembly – Hands on of Star-Delta assembly – 04 hrs</li><li>• Overload Relay, Microprocessor Relay- Why new versions of relays? – 02 hr.</li><li>• Motor protection circuit breaker- why MPCB needs to be used? 03 hrs</li><li>• Soft starter- overview on use of soft starter. – 02 hr</li></ul> Total duration of the course – 32 hrs
<b>Duration</b>	12/03/2022 to 23/04/2022
<b>Number of Participants</b>	35
<b>Organised By</b>	Electrical Engineering Department, Guru Gobind Singh College of Engineering, Nashik
<b>Name of the trainer</b>	Mr. S. M. More

**Guru Gobind Singh College of Engineering and Research Centre, Nashik**

**Program Report**  
**Computer Engineering Department**

Title of Program	Training on "AWS Cloud Foundation"
Objective of Program	To provide following knowledge: Module 1 – Cloud Concepts Overview Module 2 – Cloud Economics and Billing Module 3 – AWS Global Infrastructure Overview Module 4 – Cloud Security Module 5 – Networking and Content Delivery Module 6 – Compute Module 7 – Storage Module 8 – Databases Module 9 – Cloud Architecture Module 10 – Automatic Scaling and Monitoring
Name of Resource Person	Mr. Sandeep G. Shukla
PO Achieved	PO1- 3 PO3- 3 PO5- 3 P12- 3
Resource Person Post and Organization	Asst. Professor, GCOERC, Nashik (AWS Training Instructor)
Date and Time of Program	From 1 <sup>st</sup> October to 20 <sup>th</sup> November 2021
Venue	Online – Google Meet, AWS Academy LMS
Organised By	Department of Computer Engineering under EduSkills Foundation
Program In-Charge	Mr. Sandeep G. Shukla
Target Student	Third Year Computer Engineering
No of Students Present	68
Program Approved by Principal/HOD	Principal & HOD
Supporting Staff Member	-
Photograph/Video Available	Screenshots Available
Nature of Photo Submission (Soft/Hard) & To whom	Soft
Brief about the Program (Activity/Event)	This introductory course provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support. It contains 20 hours of course content and prepares students to pursue an AWS Certified Cloud Practitioner certification
Name and Sign of Program In charge	Mr. Sandeep G. Shukla 
Signature of HOD	Mr. Sandeep G. Shukla 
Signature of Vice Principal	Dr. Shyamkumar D. Kalpande 
Signature of Principal	Dr. Neelkanth G. Nikam 
Remark if Any (for office use)	

- List of Enl:-
1. Screenshots of the program.
  2. List of the students.

## STUDENT FEEDBACK OF SESSION

### AWS Cloud Foundation Training Feedback

Sr. No.	Feedback Questions	Average Rating out of 3
1	At what level AWS Training helps in applying the knowledge of mathematics, science, Engineering fundamentals, and an Engineering specialization to the solve the complex Engineering problems? [PO1]	2.91 / 3
2	At what level AWS Training helps in Design solutions for complex Engineering problems.[PO3]	2.70 / 3
3	At what level AWS Training helps in Create, select, and apply appropriate techniques, resources, and modern Engineering and IT tools including prediction and modelling to complex Engineering activities with an understanding of the limitations.[PO5]	2.74 / 3
4	At what level AWS Training helps for need of independent life-long learning [PO12]	2.91 / 3
5	Rate content delivered in AWS Training	4.59 / 5
6	At what level your doubts are resolved / answered by the expert?	4.62 / 5
7	How would you rate the overall AWS Training?	4.70 / 5
