On the occasion of Jal Jagruti Saptah जल जागृती सप्ताह Water for Peace

Date: 19th March, 2024

Venue: Z.P. Primary School Gaulane Village and Yashodamata Madhyamik Vidyalay Gaulane

Event Schedule:

Date	Time	Description
19 Mar 2024	10:00 AM - 12:00 PM	

Dear All,

On the occasion of "Jal Jagruti Saptah (जल जागृती सप्ताह)" Department of Civil Engineering had organized awareness campaign on "water Uses and conservation" awareness and seminars Sessions at 1) Z.P. Primary School Gaulane Village on 19th march 2024 for 1st to 4th standard students and 2) Yashodamata madhyamik Vidyalay Gaulane Village on 20th march 2024 for 6th to 9th standard students. Presentation Given by Mr Desale D. S. and Mr. Bhagat K.P. Under key guidance of Dr. V M Natraj Head of Department Civil Engineering

Venue 1: Z.P. Primary School Gaulane Village

- **Date:** March 19th, 2024
- **Target Audience:** Students from 1st to 4th standard
- **Objective:** Educate young minds about the importance of water and instill habits of water conservation.

Activities:

1. **Awareness Session:** Interactive session conducted to engage students in understanding the significance of water in their daily lives.
2. **Poster Exhibition:** Displayed informative posters illustrating the water cycle, conservation methods, and the impact of water scarcity.

Outcome:

- Enhanced understanding among young students regarding the value of water resources.
- Encouraged proactive measures towards water conservation at a young age.
- Increased awareness about individual responsibilities in preserving water for future generations.

Venue 2: Yashodamata Madhyamik Vidyalay Gaulane Village

- **Date:** March 20th, 2024
- **Target Audience:** Students from 6th to 9th standard
- **Objective:** Provide comprehensive knowledge about water management and conservation practices suitable for older students.

Activities:

1. **Seminars:** Conducted informative seminars covering various aspects of water management, including sustainable usage practices and the role of technology in conservation efforts.
2. **Group Discussions:** Facilitated discussions to encourage students to brainstorm innovative solutions for local water-related challenges.

Outcome:

- Deepened understanding among older students regarding complex issues related to water conservation and management.
- Inspired students to take leadership roles in promoting water-saving initiatives within their communities.
- Fostered a sense of environmental stewardship and responsibility among the youth towards preserving water resources for future generations.

Conclusion: The "Jal Jagruti Saptah" awareness campaign conducted by the Department of Civil Engineering served as a pivotal platform for fostering awareness and inspiring action towards water conservation. By engaging with students at different educational levels, the campaign successfully imparted knowledge and instilled a sense of responsibility towards preserving this vital natural resource.

Recommendations:

- Continued efforts in organizing similar awareness campaigns targeting diverse demographics to ensure broader community participation.
- Collaboration with local authorities and organizations to implement practical water conservation initiatives based on the insights gained from the campaign.

Acknowledgments: Special thanks to the Shri Thakare Bhila (+91 9881344061), Shri Pradeep Bhavsar(+91 9763483680) and students of Z.P. Primary School Gaulane Village and Yashodamata Madhyamik Vidyalay Gaulane Village for their active participation and support in making the awareness campaign a success. Additionally, gratitude to the Department of Civil Engineering for spearheading this impactful initiative.
