On 8th of January 2025, the B.B.A students and faculty members visited 'Tri-tech disconnectors', Wadiware, Nashik. They were explained in detail the manufacturing process of the products manufactured in the company like off-load outdoor isolators/disconnectors, which are mechanically operated safety device incorporated for electrical isolation of system. Widely used in high voltage installations, transmission & distribution layouts, for isolation of part or complete electrical system, for carrying out maintenance, repairs & similar activities where the system has to be isolated from primary circuit.

The students understood the processes, systems like galvanizing of parts and gas cutting of metal sheets used to prepare the boxes. So also the HR policy, quality policy, marketing policy of the organization.

They interacted with the respective heads of the departments to understand the role played by each of the department in contributing to the organizational goals.
